David Park

Software Engineer

GitHub | LinkedIn | davidpark1094@gmail.com

I am a Software Engineer with a passion for full stack development, equipped with a background in psychology and management that enables me to adeptly address both technical and non-technical challenges. My goal is to create complex yet user-friendly applications for people of all computer proficiencies, ensuring quality through a commitment to the core principles of consistency, reliability, and functionality. With an emphasis on teamwork and collaboration, I take pride in working with others to deliver innovative solutions.

SKILLS

Languages - HTML, CSS, JavaScript, Python | **Libraries and Frameworks** - Express.js, Node.js, Django, MaterializeCSS, TailwindCSS | **Databases** - MongoDB/Mongoose, PostgresQL | **Other** - Linux, JSON, CLI, Github, VSCode, Postman, Git, MVC frameworks

TECHNICAL PROJECT EXPERIENCE

Portfolio | GitHub | HTML, CSS, JavaScript
- Designed a personal portfolio with an intricate focus on aesthetics.
- Developed a responsive, single-page application that seamlessly adapts to various screen sizes, creating an engaging user experience.

Monitor Reviews | GitHub | MongoDB/Mongoose, Express.js, Node.js, EJS, HTML, CSS, Postman
- Created a MEN-Stack application that delves into the realm of gaming and office monitors.
- Implemented a robust MVC file structure, restful routes, and a comprehensive CRUD system, ensuring effective management of monitor reviews and information.

JavaBook | GitHub | Python, Django, PostgreSQL, MaterializeCSS, HTML, CSS
- Collaborated with a dynamic team to architect JavaBook, a full-stack Django application.
- Assumed the role of a scrum master, orchestrating daily standups, and contributed to both back-end and front-end coding, resulting in a harmonious and feature-rich application.

RELEVANT EXPERIENCE

General Assembly | Software Engineer Fellow | Remote | 2023
- Completing 12-week, full-time immersive coding bootcamp led by experts, creating frontend, backend, and full-stack applications in teams and independently.

ADDITIONAL EXPERIENCE

Lynnwood Cleaners | Manager | Lynnwood, WA | 2018-2023
- Managed supply chain and inventory, ensuring availability of necessary materials and minimizing waste.
- Operated and maintained dry cleaning machines, ensuring proper handling and care.
- Maintained a strong focus on customer satisfaction, resolving any issues promptly and ensuring a positive customer experience.

Target | Backroom Associate | Everett, WA | 2015-2016
- Prioritized speed and accuracy in completing tasks to meet demanding timelines and support the store's operational efficiency.
- Effectively managed time to prioritize tasks and handle multiple responsibilities simultaneously.

EDUCATION

General Assembly | Remote | 2023
Software Engineering Immersive
University of Washington Bothell | Bothell, WA | 2017
Bachelor of Arts - Community Psychology
